CURRICULUM VITAE

Postal Address:
Department of Mathematics, University of Peshawar,
Khbyer PukhtoonKhwa, Peshawar, Pakistan
Mobile # +923339341107, +923078405524
Email: raminmath@uop.edu.pk , rohulamin.math@gmail.com

Dr. ROHUL AMIN

Objectives:

To work within competitive environment so that I can fully utilize my Professional abilities for the best interest of the Organization and to be Professional in future.

Personal information:

Father Name:	Bakht Rawan
Date of Birth:	05/05/1985
Place of Birth:	Dir (Lower) Khbyer PukhtoonKhwa, Pakistan
Marital status:	Married
Nationality:	Pakistani

Academic Background:

PhD (Applied Mathematics)
Department of Mathematics, University of Peshawar, Session 2013-17

M. Phil (Pure Mathematics)
Department of Mathematics, University of Peshawar, Session 2011-13

M. Sc Mathematics,
1st division, Department of Mathematics, University of Peshawar, Session 2006-08

B. Sc (Math-A, Math-B, Computer Science) 1st division, University of Malakand, Session 2004-05

F. Sc Pre-engineering, 1st division, BISE Malakand, Session 2002-03

S. Sc Science Group, 1st division, BISE Swat, Session 2001

B. Ed (Bachelor of Education), 1st division, University of Peshawar, Session 2007-08

Experience:

(1) Currently working as Assistant Professor at Department of Mathematics, University of Peshawar since 19-11-2025 to till date.

(2) Worked as a Lecturer at Department of Mathematics, University of Peshawar since 21st Oct 2-009 to 18-11-2025, Also taking Visiting classes in Institute of Chemical Sciences and Department of Pharmacy University of Peshawar.

(3) I worked as a Teacher of Mathematics at Asia Model School & College Peshawar, from 02 February 2008 to 02 Jan 2009.

(4) Worked as Focal Person for Prime Minister Laptop Scheme

(5) Currently working as Staff Proctor, University of Peshawar

(6) Currently working as MPhil and PhD Program Coordinator since 2017

Languages:

- Mother tongue Pashto.
- Can Read, Write and speak easily Urdu and English.

Teaching Experience:

1. Teaching Mathematics in Department of Mathematics, University of Peshawar for the last 12 years.
2. Taught the following subjects in the University of Peshawar.
    - Pharmaceutical Mathematics
    - Mathematics for Chemists
    - Elements of set theory and mathematical logic
    - Discrete Structure
    - General topology
    - Topology-I
    - Topology-II
    - Calculus-I
    - Calculus-II
3. I am visiting teacher in the following institutions:
    - Institute of Chemical Sciences University of Peshawar since 2009.
    - Department of Pharmacy University of Peshawar since 2012.

Examination and Assessment Activities:

- External examiner for the MSc. Mathematics Examination of the University of Punjab.
- External examiner for the MSc. Mathematics Viva-voce Examination of the University of Haripur.
- Paper Setter & Examiner of University of Peshawar
- Remained paper setter & Examiner of Bannu University of Science & technology, Bannu.
- Paper Setter & Examiner of University of Haripur
- Paper Setter & Examiner of Khushal Khan Khattak University Karak

Supervisions:

HEC Approved PhD Supervisor

I have been awarded the status of HEC approved PhD Supervisor in the discipline of Physical Sciences since 22/12/2017 and onward.

BS Thesis Supervision (Completed)

1. Numerical solution of fractional pantograph delay differential equation using Haar wavelet collocation method (Uzma Naseer 2025)
2. Numerical solution of third order nonlinear ordinary differential equation using Haar wavelet collocation method (Tanver, idres 2025)
3. Numerical solution of multi-term pantograph delay differential equations using Haar wavelet collocation method (Syed Muhammad Saqib Ijaz, Bilal Hassan, Muhammad Yasir 2025)
4. Numerical solution of Bagley-Torvik equation using Haar wavelet collocation method (Javeria, Komal Riaz, Shamla Mehboob, Uzair Ahmad, July 1, 2024)

5. Numerical solution of second order nonlinear differential equation using Haar wavelet collocation method (Sohail Khan, Haris Khan, Saddam Husain, Syed Aqib Ali Shah, July 1, 2024)
6. Numerical solution for pantograph Volterra delay-integro-differential equation using Haar wavelet collocation method (July 1, 2024)
7. Numerical solution of second order differential equations by Haar wavelet method (Zia Ur Rahman, Muhammad Usman, Khalid Khan, Khkula Rahim, Maria Wadood, July 14, 2023)
8. Haar wavelet collocation method for solution of third order differential equation (Muhammad Haroon, Momna Hassnain, Mohammad Abid, Abd Ur Rehman, June 12, 2023)
9. Haar wavelet collocation method for solution of linear and nonlinear neutral delay differential equation (Nauman Ahmad Sher, Tahir Ali, Mehran Ud Din, Raheem Ullah August 12, 2021)
10. Numerical solution of linear and nonlinear variable order fractional differential equations using Haar wavelet (Hafsa, Aatif Nawaz, August 12, 2021)
11. Numerical solution of second order delay differential equations using Haar wavelet collocation method (Fakhar Zaman, Imad Ullah, Zohaib Khan, 2020).
12. Numerical solution of neutral delay partial differential equations using Haar wavelet collocation method (Muhammad Awais Barakat, 2018).

MS/MPhil Thesis Supervision (Completed)

1. Numerical solution of fractional relaxation-oscillation differential equation using Haar wavelet method (Ms. Shamla Mehboob, University of Peshawar, 2026)
2. Solution of nonlinear coupled fractional integro-differential equations via Haar wavelet collocation method (Ms. Javeria, University of Peshawar, 2026)
3. Solving eight-order boundary value problems with mixed boundary conditions via linear Legendre multi-wavelets (Ms. Ayesha Khan, University of Peshawar, 2025)
4. Optimal control and semi analytical solution of a fractional diabetes model via Laplace Homotopy perturbation method (Ms. Johar Ali University of Peshawar, 2025)
5. Solution of sixth order linear and nonlinear integro-differential equations via Haar wavelet collocation method (Mursaleen Khan, University of Peshawar, 2025)
6. Numerical solution of fractional oscillation equations with mixed integral terms using Haar wavelet collocation method (Mohammed Mohsen Fadhl Arabh, University of Peshawar, October 28, 2025)
7. Haar wavelet collocation method for the numerical solution of third and fourth-order delay differential equations (Salman Khan, University of Peshawar, 2025)
8. Existence and numerical solution of fifth order linear integro-differential equations via Haar wavelet collocation method (Syed Muhammad Usama, University of Peshawar , August 21, 2025)
9. Mathematical analysis of fractional model for propagation of malicious codes in wireless sensor network (Aifa Tariq, University of Peshawar, December 13, 2024)
10. A numerical solution of the integro-differential equation using the Haar wavelet collocation method (Izaz Ul Haq, University of Peshawar, October 02, 2024)
11. Haar wavelet method for the numerical solution of system of second order differential equations (Imdad Ullah, University of Peshawar, November 16, 2023)

12. Numerical solution of system of fractional integro-differential equation using Haar wavelet collocation method (Raheem Ullah, University of Peshawar, July 12 ,2023)
13. Numerical solution of one-dimensional boundary value problems of second and third order by reproducing kernel particle method (Muhammad Bilal, University of Peshawar, February 23, 2023)
14. Ulam-Hyers stability of a mathematical model of COVID-19 (Shaheen Fatima, University of Peshawar, March, 2023)
15. Numerical solution of fourth-order integro-differential equations using Haar wavelet collocation method (Muhammad Nawaz, University of Peshawar, May 18, 2022)
16. Existence and uniqueness of some fixed-point results in C*-algebra-valued generalized metric spaces (Arshad Yousaf, University of Peshawar, May 18, 2022)
17. Numerical solution of the system of delay Volterra-Fredholm integral equations via Haar wavelet (Asmatullah Khan, University of Peshawar, January 18, 2022)
18. Numerical solution of the systems of fractional order differential equations with Haar wavelet (Irfan Ullah Khan, University of Peshawar, October 03, 2020)
19. Numerical solution of second and third order integro-differential equations using Haar wavelet method (Muhammad Awais Barkat, University of Peshawar, October 03, 2020)
20. Numerical solution of delay integro-differential equations via Haar wavelet (Fazli Hadi, University of Peshawar, September 21, 2020)
21. Numerical solution of fractional integro-differential equations via Haar wavelet (Faheem Ullah University of Peshawar, January 08, 2020)
22. Numerical solution of delay integral equations using Haar wavelet collocation method (Waqar Ahmad, University of Peshawar, June 27, 2019)
23. Numerical solution of Abel's integral equations using Haar wavelet collocation method (Gul Islam, University of Peshawar, February 01, 2019)

PhD Thesis Supervision (Completed)

1. Solution of fractional differential equations by radial basis functions collocation method (Javed Khan, University of Peshawar, 2026)
2. Solution of Convection-Diffusion-Reaction models using Haar wavelet collocation method (Sakina Sher Zaman, University of Peshawar, November 15, 2024)
3. Numerical solution of two and three-dimensional interface problems using Haar wavelet and meshless methods (Muhammad Faheem, University of Peshawar, December 13, 2024)
4. Higher-order Haar wavelet approximations for integral and integro-differential equations (Shumaila Yasmeen, University of Peshawar, November 17, 2023)
5. Numerical simulation of epidemic models with integer and fractional order derivatives (Arshad Alam Khan, University of Peshawar, February 22, 2023)

MS/MPhil Thesis Supervision (in progress)

1. Muzammil ilahi Baig
2. Khadija Irfan
3. Muhammad Adnan Khan

PhD Thesis Supervision (in progress)

1. Muhammad Osama

Thesis Evaluated

BS

1. Solution of Modified Burgers' Equation via Cubic Trigonometric B-Spline Based Differential Quadrature Method (BS project in respect of Sajid Ali supervised by Dr. Arshad Ali letter No. 600/Math/ICP dated: 23-11-2020)
2. A Meshfree Method for the Solution of Kdv-Mkdv Equation Using Radial Basis Functions (BS project in respect of Javeria Shahid supervised by Dr. Arshad Ali letter No. 682/Math/ICP dated: 07-01-2021)

MS/MPhil

1. Numerical Solutions for Magnetohydrodynamic Mixed-Convection Flow of Non-Newtonian Nanofluid over a Stretching Sheet (Sana Miraj MPhil scholar in Qurtuba University of Science & information Technology, Phase 3, Hayatabad Peshawar, 25/08/2025)
2. Mathematical Analysis of Malaria Disease Model via Decay in Mosquitoes Population, (Amir Alam. University of Swat)
3. Purturb solution for convective MHD two phase fluctuating channel flow of second grade fluid using light hill method (Noor Hayat Khan MPhil scholar in Qurtuba University of Science & information Technology, Phase 3, Hayatabad Peshawar, Pakistan 28/10/2024)
4. Some results in vague soft expert set (Fareed Ullah Khan, MPhil scholar of mathematics, Gomal University, Dera Ismail Khan 30-07-2024)
5. A new approach to fuzzy soft group theory (Muhammad Asghar MPhil scholar of mathematics, Gomal University, Dera Ismail Khan 03-07-2024)
6. Few structures in bipolar vague soft topological spaces in terms of bipolar vague soft generalised-open sets (Khizar Hayat MPhil scholar of mathematics, Gomal University, Dera Ismail Khan 03-05-2024)
7. An Enhancement in Gauss Elimination Method for Solving Linear System of Equations (Khalil Ullah MS scholar in Qurtuba University of Science & information Technology K1, Phase 3, Hayatabad Peshawar, Pakistan 29/07/2022)
8. Criteria for Approximate solutions to Caputo-Fabrizio fractional differential equations (Eiman supervised by Dr. Kamal Shah letter No. UOM/Sec/M.Phil/3,864/40998 dated: 10-04-2021 University of Malakand Chakdara Dir lower 21-04-2021)
9. Degree product matrix and polynomial for a graph (Zahid Ullah MS scholar in Qurtuba University of Science & information Technology K1, Phase 3, Hayatabad Peshawar, Pakistan 17/04/2019)
10. Amended Sine-Cosine algorithm for high dimensional optimization problem (Nadia Parveen Kohat University of Science and Technology 10-02-2022)
11. Efficient numerical algorithms for computation of highly oscillatory integrals with and without stationary point (Noor Jamal MS scholar in Qurtuba University of Science & information Technology K1, Phase 3, Hayatabad Peshawar, Pakistan 07/02/2019)
12. Application of some different types of numerical methods for the solution of multi points problems (Huma Akbar MS scholar in Qurtuba University of Science & information Technology K1, Phase 3, Hayatabad Peshawar, Pakistan 07/08/2018)

International Workshops /Seminars /Conferences:

- 2-Day workshop on Semester System: Rethinking Education (Phase-III), March 16-17, 2017, Institute of Education and Research, University of Peshawar in collaboration with Fulbright.

- CIMPA-UNESCO-IRAK SCHOOL Inverse Problems: Theory and applications Erbil, Kurdistan Region-Iraq, May 5, 2014 - May 14, 2014.
- International Workshop on Solutions of Differential Equations from Transform Techniques ($SDET^2$ -2014), January 30 to February 1, 2014. COMSTECH Building, 33 Constitution Avenue, G-5/2, Islamabad Pakistan.
- Symmetries, Differential Equations and Applications (S∂EA–II) 27th Jan - 30th Jan (2014). Center for Advanced Mathematics & Physics (CAMP) National University of Sciences & Technology (NUST), Campus H - 12, Islamabad, 44000, Pakistan.
- 1st International Alumni's Mathematics UET Conference, dated 26 February 2022, Lahore, Pakistan.
- Two days 2nd International Conference on "Orthogonal Polynomials, Special functions and Computer Algebra: Applications in Engineering" (OPSFCA-2022) on October 15th – 16th, 2022.

Research Projects Awards:

- Research collaboration with Chinese collaborator, Liping Gao, Department of Computational Mathematics, School of Sciences, China University of Petroleum Qingdao, China, for a period of 26 days (from 09 August to 04 September 2023).
- Project titled "Elaboration of Haar collocation technique for solution of the nonlinear Volterra-Fredholm fractional integro-differential equations of constant order" supported by the National Science Centre, Poland under Grant No. 2017/27/B/ST8/00351.
- Research collaboration with Chinese collaborator, Liping Gao, Department of Computational Mathematics, School of Sciences, China University of Petroleum Qingdao, China, for a period of 11 days (from 14 June to 24 June 2019).
