Principal's Message

The Jinnah College for Women, University of Peshawar is one of the foremost female colleges of Khyber Pakhtunkhwa. Its students take great pride in being associated with it for getting admission into this prestigious institution is a herculean task. Merit is its only criteria and this is reflected in the excellent results the College produces session after session. The College has grown over the last fifty years from a small University College of a few students and a small teaching and administrative staff into a tremendous institution of two thousand students. The credit goes to the former Principals and Staff whose dedication to the College has produced an institute, the Province can be proud of.

Education at Jinnah means to impart knowledge and to give intellectual instructions and to develop the character of the student through a process of so that, she develops into a well-rounded individual. For her the experience at Jinnah College for Women is an enlightening one so, as a consequence can become a better human being. Armed with this educational experience she can have better understanding of the world around her and is able to easily find her place in it. My Staff and I are endeavoring to develop the young ladies with new ideas that it can lead to broadening of minds.

As a parent, a teacher and a responsible citizen I believe unanimously that over the years, the one desire that is seen growing among Pakistani girl is to acquire higher education. In a country where more than 61% of the population lives below the poverty line, female education takes a back seat. I strongly believe we can make efforts to overcome this growing problem if we work diligently and selflessly towards the development of an institution that is not only progressive but also promotes a standardized education that will benefit our students, our society and our future generations.

Prof. Dr. Tazeen Gul (Principal)
